

Hytech 2000

All-In-One transaction terminal

Our Hytech 2000 series is a small footprinted integrated transaction terminal. Its modern design emphasizes the compactness of the terminal. The proven and user-friendly solution is equipped with the latest technologies. Thanks to the small footprint, the terminal is ideal for the retail environment. The terminal can be expanded with several options like an integrated receipt printer, precision weighing scale, Beacon and NFC module, LED-lightning.

The Hytech 2000 is a elegant and modern terminal. The industrial characteristics fits perfectly in a consumer environment.

The terminal has on both sides a 8" capacitive touchscreen behind a graphite black glass plate.

The Hytech 2000 has optimal opportunities for store surroundings:

- available in every color
- optimal brandings possibilities
- Wireless and UTP connection
- HDMI
- Bluetooth functionality
- suitable for various peripherals
- Narrowcasting possibilities

Features

- ergonomic design with optimum angle for desk position
- 8 "capacitive touchscreen behind graphite black glass plate
- suitable for various peripherals
- Optionally maintenance free precision weighing scale (0 – 30 kg), automatic correction until 5 degrees, no recalibration needed.
- Optionally Beacon and NFC module
- Windows 10 based

Specifications

Display	8 " TFT	Capacitive Touch	USB LED Backlit
Processor		Resolution	1280x800
Main Memory		Intel Celeron	J1900
Interfaces		2GB DDR3L-1333	SODIMM
		USB 2.0/3.0	4 connections
		VGA, HDMI	
		2x ethernet LAN:	GBIT
		WIFI & BT module	
Drive:		SSD	64GB
Optional		Keyboard drawer	
		RAD Beacon	USB
		NFC reader	USB
IOS		Windows 10 IoT Enterprise	2016
Scale		LTSB Embedded	
		capacity:	1g - 30kg
		0-2.5kg:	1gr. 2.5-5kg: 5gr
		5-10kg:	10gr, 10-30kg: 20 gr
Color			in every color available
